

Bring your imagination to life

Powered by:

Limitless creativity at your fingertips

Easy

- User-friendly interface control panel
- Chamber temperature management for consistent 3D printer performance
- Faster printing mode is available

Design

- Stylish appearance with durable steel chassis frame with easy swing door
- Dependable structural framework for steady 3D printing process
- CoLiDo® filament range available

Operation

- Patented design printing platform for steady performance
- Intelligent print head design for precise 3D printing
- Build-in LED for viewing 3D printing progress

Specification

Print Technology	Fused Deposition Modeling
Nozzle Quantity	1
Build Volume	20*20*19 cm
Layer Resolution	0.1mm (100 microns)
Filament Material	PLA / ABS / TPU
Filament Diameter	1.75mm
Dimension	430*430*475 mm (22.5)
File Type	STL <> GCO
Supports	Window 7, Mac OS, Linux
Connectivity	USB & SD Card

CoLiDo® M2020
